BioTime

Web-Based Time & <mark>Attendance</mark> Management Software

BioTime 8.0 is a powerful web-based time and attendance management software that provides a stable connection to ZKTeco standalone push communication devices by Ethernet/Wi-Fi/GPRS/3G and working as a private cloud to other employee self-service by means of mobile application.

Multiple administrators can access BioTime 8.0 anywhere using a web browser. It can easily handle hundreds of devices and thousands of employees and their transactions.
BioTime 8.0 comes with a friendly user interface that is able to manage timetable, shift and schedule and can easily generate attendance report.

Latest Compatible Software Version: BioTime 8.0.1
Demo Link: http://time.xmzkteco.com:8097
User Name: admin / Password: admin

Global Rule & Local Rule integration

Biotime is a powerful time attendance software which can setup various attendance rules which is applicable for the whole company and individual departments. User can set the attendance parameter like check-in, check out, and overtime rules.

Basic Attendance rules

Overtime Rule

Overtime can be set to "Disable Overtime", "Calculaton OT", "Approval OT" and "Approval OT Priority"
- Disable Overtime: Disable the overtime function.
- Calculation OT: Calculates the overtime based on the punch time
- Approval OT: Calculates the overtime based on the overtime application
- Approval OT Priority: Preferentially calculates the overtime on the overtime application

Missing Check-In and Check-Out Time

When there is no Check-In record, the result can be set as "Late" or "Absent"
When there is no Check-Out record, the result can be counted as "Early Leave" or "Absent"
Web-Based Time Attendance Software

Users can access the centralized system anywhere by their web browser to remotely manage thousands of T&A terminals under complex network (WLAN).

Flexible Shift Scheduling and Auto Shift

Software adminstrator can assign flexible schedule which support cross-day timing to the employees.

- Multiple Timetable
- Cross day (24 hours) shift
- Shift Cycle
- Auto shift
- Temporary Schedule

Embedded HR Integration

BioTime is a platform which can be integrated with ERP and HR software to do synchronization using API in these fields (Employee, Department, Area, Job).
Auto-Synchronization of Palm, Face, Fingerprint, and Card Templates

Automatically synchronizing the data between devices and server among the same "Area" to ensure the information are updated.

Device and Personnel in the same "Area" will keep data synchronization

Multiple Admin Privilege

Multiple admin can be set to manage different privilege in the software. Admin will get a list of employee's attendance including the number of lates and absences.

Admin 1   **Admin 2**   **Admin 3**   **Admin 4**

Available Soon

Simple Access Control Module

Simple access control module that can set up the access control settings on the time attendance devices.

Access Control Menu

Access Control
Access Control Options
Time Schedule
Holidays
Access Groups
Combined Verification
Duress Options

Employee Self-Service

Access login is provided for each employees to check their attendance. Employees can apply for online leave to approved by the manager or admin.

Employees can:
• Apply leave
• Apply manual punch
• Apply overtime
• Self Report Enquiry

Real Time Data Transmission

The data from the inter-regional terminals can be monitored in real time and you can manage attendance, personnel, device, and payroll in one system.
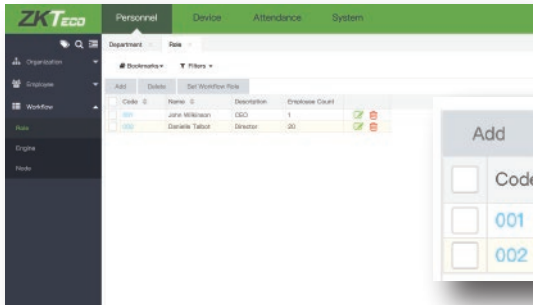

NEW

Permission Process

The entire workflow operation has been more advanced and complete in BioTime, users are able to configure roles to different staffs, and that creates logics in the system, and workflow of the permission process setting will become simpler.

|	Code ⇕	Name ⇕	Description	Employee Count		
☐	001	John Wilkinson	CEO	1	✎	🗑
☐	002	Danielle Talbot	Director	20	✎	🗑

Multi-Level Approvals and Automatic E-mail Alerts

Email notifications for the attendance exceptions and multi-level approvals.

Leave or manual punches can be applied through BioTime, which can be approved by multi-level approvers who are set by hierarchal level.

E-mail notifications are sent to employees for attendance alerts in case of late, early leave, and absence.
Attendance Reports and Calculation

The attendance reports are calculated easily and can be exported in CSV, PDF, and XLS format.
CSV Export
PDF Export
Excel Export
TXT Export

Payroll Management

Available Soon

BioTime is a platform designed to organize all the tasks of employee payment and generate salary reports. These tasks can include keeping track of hours, calculating salary, and overtime allowance.

Payroll Structure

- Salary Structure
- Salary Increment
- Allowance
- Expense
- Cash Advance
- Payroll Report

Payroll Formula

Users can use either defined or fixed formulas for the payroll calculation.

Payroll report export

The payroll and salary reports are calculated easily and can be exported in CSV, PDF, and XLS format

Report Format Customization

BioTime provides some great instance to customize and build your own report format with the slelected fields which allows user to gain valuable insights from the tools.

Select the fields for the report layout

The selected items in the filed will be displayed in the report's column

Database Backup

NEW

BACK UP

BioTime now supports the database backup function, user can schedule backup time from shortest one backup per second to the longest once a month.

Database Migration

NEW
BioTime can support database migration from different ZKTeco previous software such as WDMS5, BioTime and ZKTime.web, once setting is completed, the database can be migrated automatically.

ZK WDMS
ZKTime Web 2.0

Database Migration

Device Log

NEW
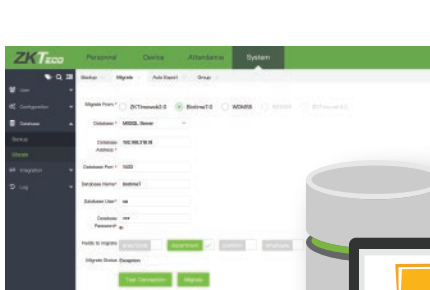

Log

Once the terminals is under BioTime management and setting is completed, all device operation logs will automatic be synchronized to the BioTime, administration staff can have a very clear and detailed device operation information of every single terminal.

New Searching tools

NEW

In this version, every single page of the BioTime now has a newly added "Bookmarks" & "Filter" function, administration staff can bookmark important pages and use filter function to obtain necessary information according to their needs.
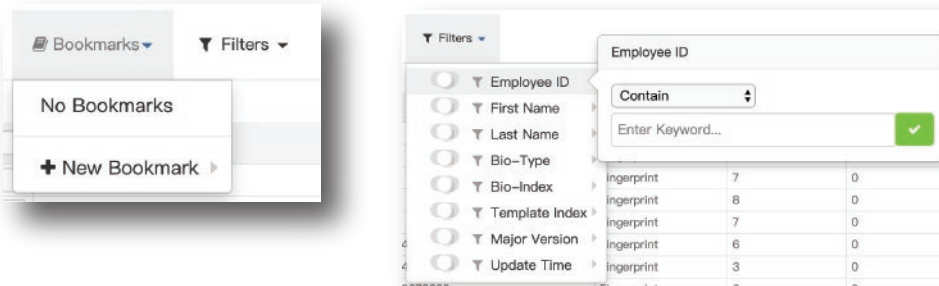

Theme Color Setting

NEW

We make it easy to coordinate colours and themes across your BioTime and users can change the theme or just customize colours via the setting of BioTime.
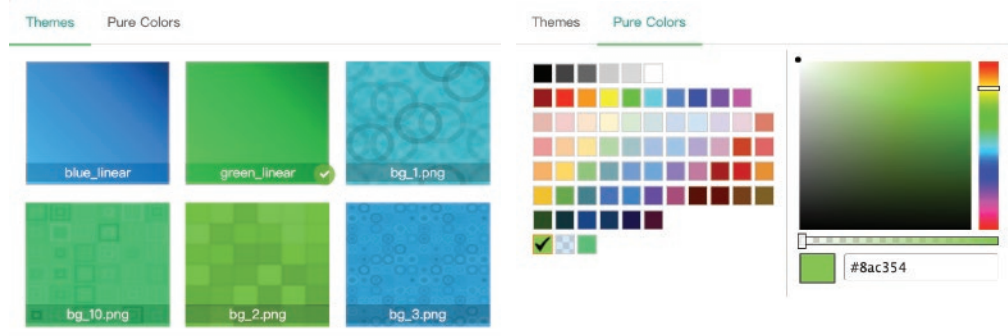

Custom themes   Custom color

NEW

Integration Function

In this version, user can set an exported file under user's request with different criteria available in the system. In the BioTime, the integration can support both FTP & SFTP sever.
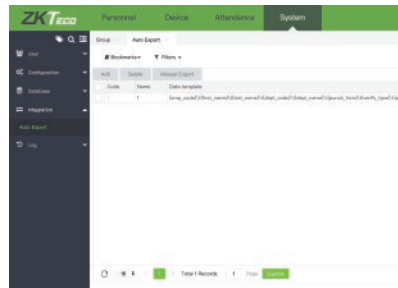

NEW

Screen Scale Fitting Tools

BioTime has several special screen scale fitting tools, user can use these tools to configure screen scale to fit monitors better.
NEW

Integration with Line Application *(Selected Location)*

BioTime 8.0 is integrated in LINE mobile application to send attendance logs and attendance photo from the software to LINE in real-time. It can also send the daily attendance report to Team Leader through LINE.
Reports

Users can change the company logo to their own which can be shown in the generated reports.
